Machine Cleaning

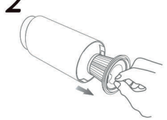

Ensure that the dust bin is emptied and cleaned regularly

1

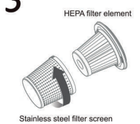

Rotate the dust bin counter clock wise to remove the dust bin from the machine body

2

Take out the filter screen in the dust collection bin and pour the garbage into the trash can

3

Rotate the stainless steel filter screen counterclockwise to remove the stainless steel from the haipa filter screen

4

The dust cup can be cleaned with a slightly wet rag or disposable paper towel.
The filter screen can be washed with water. After washing, it must be throughly dried before reuse

5

After cleaning and drying, install it in the opposite direction and use it
