Use the app's editing features to enhance your media:

- Images: Crop, apply filters, and beautfy.
- Videos: Clip segments, add music, and perform other customization.

Installation method

Connect the car charger to camera's USB port and Wire the cable according to the overall wiring diagram below.

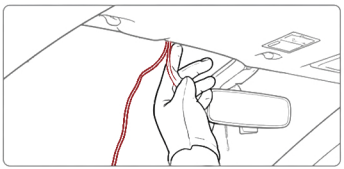

Wiring method :

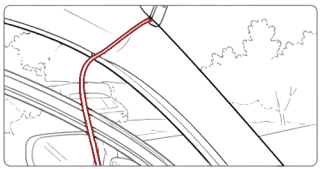

Please Note

Please use the original car charger provided to avoid fault or incompatibility.

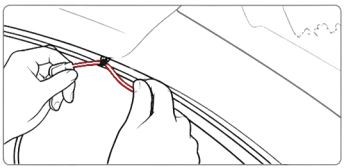

Install Car Charger Cable

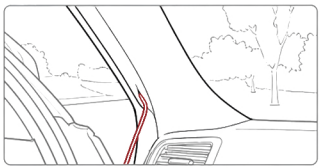

Hide the cable into to the top panel as the photo.

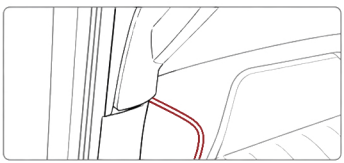

Break the side panel slightly and insert the cable. Be extra careful if there is an airbag.

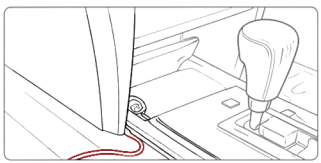

Insert the cable to the door's sealing tape.

Insert the cable according to the door's sealing tape.

Insert the cable according to the door's sealing tape.

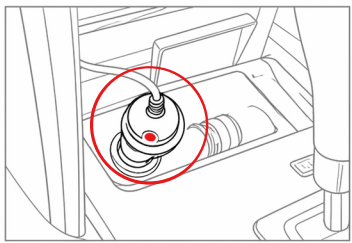

Connect the car charger to cigarette lighter.

Important Notes

If your vehicle has side curtain airbags please be very careful when running any cables along your vehicle windows. Ensure you are not running the cable past any of the airbags as this can prevent the airbags from deploying.

Please make sure the cigarette lighter is clean for connection.Please check the car charger's red indicator whether is on.
